LIGHTWEIGHT, HIGH-STRENGTH STEEL

Constructed of durable, high-strength, low-alloy steel components that are both stronger and lighter than conventional steel.

VERTICAL REINFORCEMENT RIBS

Compact but strong, four (straight blade) or six (V-plow) vertical ribs provide additional reinforcement and stabilizing support.

TRIP PROTECTION

The V-plow is built with an independent trip-edge, whereas the straight blade offers a full-trip moldboard.

CONTROL OPTIONS

Choose between the joystick for easy blade control when wearing gloves or the POWER GRIP™ control with backlit buttons.

RESPONSIVE DIRECT LIFT

Gives the blade a responsive full range of motion for efficient stacking and transport.

Additional Features: Easy Access Components Cover, 5" Steel Cutting Edge, Self-Aligning Receiver Brackets

V POSITION

Angle wings back to put the plow in V position—ideal for plowing lanes in fresh snow or busting through snowdrifts. Adjustable to 5' and 5'6" widths.

BUCKET BLADE™ SCOOP POSITION

Angle wings forward to engage scoop mode and carry more snow with every pass. Adjustable to 4'7" or 5'1" widths.

DOUBLE-ACTING CYLINDERS (V-PLOW)

Double-acting angle cylinders allow operator to adjust wings independently or to lock them together for efficient straight blade operation and clean back dragging.

STAND-FREE DESIGN

The blade is stable when in the V position, so no stand is needed.

MODEL:	6000 V-PLOW	6000 STRAIGHT BLADE
Blade Width	6'	6'
Blade Height	25.75" hinge / 29.25" end	23.5"
Approx. Weight*	354 lb	261 lb

- Shoe Assembly Kit
- Deflector Kit
- Poly Cutting Edges Kit
- Extended Vehicle Harness
